

Exciting news!

We have secured funding from the New Zealand Community Trust to have all three courts resurfaced. As the work requires warmth and dry weather this work will proceed as soon as possible. Late last year the committee undertook a members' poll about the court colour. We will be moving to a two-tone blue court, which is also in line with our club colours. Members will notice improved safety, with much better traction than on the current worn surface.

This leaves two major projects still to be completed – the northern walkway / bleachers (will be undertaken when the development occurs on the adjacent residential property (four new units to be built, with retaining wall), and the clubroom deck.
